01 // COMPANY OVERVIEW

TACTICOMBAT is a U.S.-based tactical gear and load-bearing equipment manufacturer supporting federal agencies, defense-related programs, and commercial brands. Our in-house operation manages product development through production and delivery, with controlled processes designed for repeatability, quality, and scalable output.

02 // CORE CAPABILITIES

PRODUCT DEVELOPMENT CAD/CAM digital patterning, prototyping, material evaluation, and design refinement for production readiness.

PRECISION CUTTING Automated cutting for repeatable geometry, efficient material utilization, and clean production consistency.

CUT & SEW Industrial sewing, programmable equipment, reinforced bar-tacking, and PALS/MOLLE construction.

ASSEMBLY & PRODUCTION Integrated assembly, QA/QC, packing, and scalable fulfillment from first article through production runs.

03 // PRODUCTS & MANUFACTURING FOCUS

Plate carriers • Modular pouches • Tactical slings • Tactical belts • Bags & packs • Organizers & accessories • Custom sewn load-bearing equipment

04 // WHY TACTICOMBAT

U.S. MANUFACTURING Controlled domestic production in El Monte, California.

MATERIAL DISCIPLINE MIL-SPEC materials and Berry-compliant sourcing when required by the program.

PRODUCTION CONTROL In-house development, cutting, sewing, assembly, and quality inspection.

SCALABLE EXECUTION Workflow supports prototypes, first articles, repeat production, and federal fulfillment.

FEDERAL ACCESS Active SAM registration and GSA Multiple Award Schedule contract.

05 // PRODUCTION & QUALITY CONTROLS

CONTROLLED WORKFLOW Development > cutting > sewing > assembly > inspection > packing and delivery.

QUALITY FOCUS Material verification, construction consistency, reinforcement checks, final QA/QC, and production traceability.

07 // CAPABILITY KEYWORDS

U.S. manufacturing • MIL-SPEC textiles • Berry-compliant sourcing • CAD/CAM patterning • automated cutting • industrial sewing • bar-tacking • MOLLE/PALS • prototyping • contract manufacturing • fulfillment
